Summary

MCA student with strong skills in **Java, JavaScript, DSA, OOP, and DBMS**. Experienced in building full-stack web applications using **React.js, Node.js, Express.js, and MySQL**, along with developing Python-based applications and automation solutions. Passionate about software development, problem-solving, and creating scalable, user-focused solutions through hands-on projects.

Education

MET Institute Of Engineering, MET Bhujbal Knowledge City, Nashik Aug 2024 - July 2026

- Master's degree in Computer Application

RNC Arts, JDB Commerce, NSC Science And Computer Science College, Nashik Sept 2021 – Jun 2024

- Bachelor of Science in Computer Science: 7.31 CGPA

Skills

- **Programming Languages:** Java, JavaScript
- **Frontend:** HTML5, CSS3, JavaScript, Tailwind CSS, React.js
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, VS Code, Anaconda
- **Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), MVC Architecture, Computer Networks, DBMS

Projects Experience

HealthFreak Sept 2025 - Nov 2025

- Built a **fitness and health tracking application** that provides users with workout planning, health monitoring, and wellness-related information.
- Developed responsive frontend components and integrated backend services using **HTML, CSS, JavaScript, Node.js, and MySQL**.
- Implemented structured data management and interactive user features to enhance engagement and improve overall user experience.

Stroke Prediction System Nov 2024 - Feb 2025

- Developed a **machine learning-based Stroke Prediction System** using Python to predict the likelihood of stroke based on patient health parameters.
- Implemented a predictive model that analyzes features such as age, BMI, glucose level, blood pressure, and medical history to generate risk assessments.
- Designed a simple and user-friendly web interface for data input and real-time prediction, promoting early detection and preventive healthcare.

Internships & Certifications

- **Aquil Tech Labs**

Software Development Intern | BoldMark

Jan 2026 - Present

- Developed a construction management web application using **React.js, Node.js, Express.js, and MySQL** for managing projects, bids, clients, and employees.
- Built and integrated **RESTful APIs** to support project tracking, employee management, and reporting functionalities.
- Implemented secure user authentication using **JWT, RBAC, and OTP-based password reset** to improve application security.
- **Java Training** – IIT Bombay (Aug 2025) Learned Java programming, problem-solving techniques, data structures, and object-oriented programming concepts.
